WHAT WE DO

Making cyber risk simpler - one step at a time.

Corax is a cyber insurance platform that uses data science, Machine Learning and advanced risk analytics to discover cyber exposure and underwriting insight. From brokers, to underwriters, to re-insurers, Corax is focused on the entire insurance value chain, making lead generation, risk selection, pricing, cyber hygiene, scoring, exposure management and scenario modeling simple and effective.

Corax makes the intangible, tangible, giving you the ability to quantify the likelihood of a cyber event and the possible range of costs for such an event - for any organization of any size, anywhere.

WHAT WE OFFER

Corax offers different solutions based on where you fit in to the cyber insurance equation.

Corax helps all those involved in cyber risk transfer. It enhances broker and underwriter cyber knowledge of individual organizations and strengthens negotiating power for brokers, underwriters and reinsurers alike.
