

# MONETIZE YOUR CYBER RISK

---

Build beyond the more basic methods of “fuel-gauge” compliance tracking, factor analytics such as FAIR, and top level insurance related assessments. Leverage RiskFirst™ into your enterprise risk framework and bring high fidelity monetized value to your bottom-line.

## Our Tech

---

### QUANTIFY DOLLAR LOSS FOR THE BOARD

Translate cyber risk into measurable financial terms to allow Board and C-suite level decisions to blend risk and investment trading into capex requirements.

### IDENTIFY HIGH IMPACT INITIATIVES

Identify the controls that are most effective in reducing the specific sources of risk your organization is facing. Track and manage your risk reduction actions effectively at Board, Executive, and Security Team levels in your organization.

### KEEP AHEAD OF FAST CHANGING THREATS

## MONITOR FOR RISK-BASED BEHAVIORS

Reduce the time, effort and complexity of monitoring for advanced threats. Target high-risk behaviors in your network and provide a highly efficient and optimal way to detect, monitor and mitigate threats.
