THE SITUATION

There are three big risks facing your company...

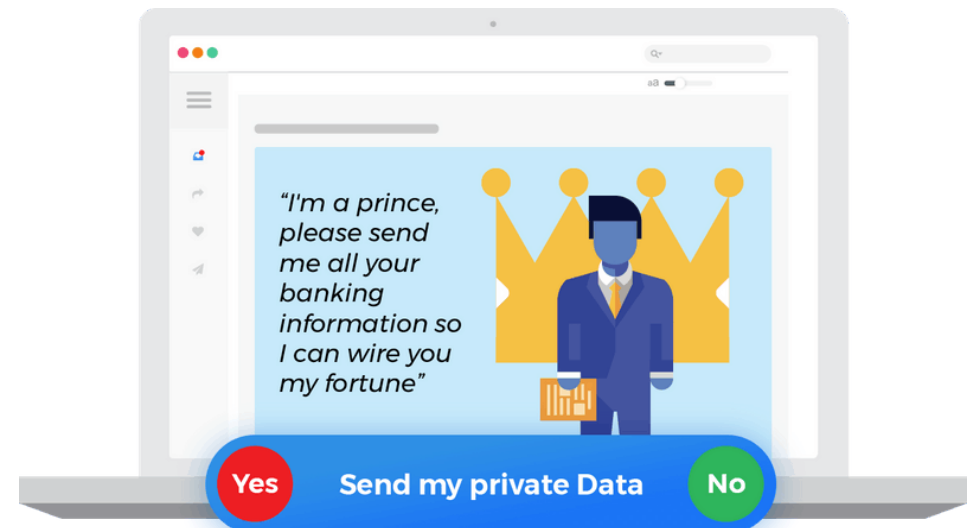

And Paladin's protection suite has you covered on every one.

TRAININGS

“Teachable moments” help make your employees cyber smart.

From our phishing simulator to our training modules, Paladin is committed to changing your employees' behavior.

Our top-notch cyber security training and simulations are constantly updated with new hacker attack vectors. More importantly, we provide your employees with “teachable moments” helping them better understand how to recognize and respond to potential attacks

Protecting your business from hackers in your browser and inbox with a simple,

Inbox and Browser Security Made Easy

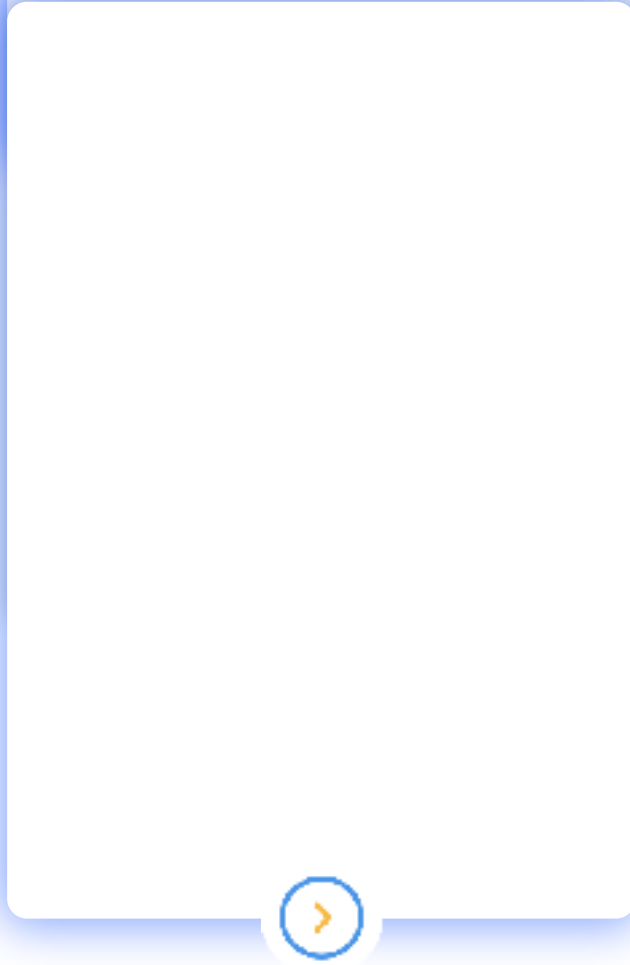

PHISHING BLOCKER

91% of successful hacking attempts start with phishing emails.

EMPLOYEES DASHBOARD

Enforce and deploy easily

Let us handle the heavy lifting of getting your employees to adopt new protocols.

Simply upload their email into the platform and we handle the rest. Paladin's employer dashboard gives you all the tools you need to make sure your team is secured, without having to hire an HR team.

The screenshot displays the 'Your employees' section of the Paladin Cyber dashboard. It features a search bar, a table of employee records, and a navigation sidebar. The table lists three employees:

FIRST NAME	LAST NAME	TITLE	EMAIL
Daniela	Botero	Project Manager	daniela@paladin.insure
Daniel	Bilbao	CTO	daniel.bilbao@paladin.insure
Alejandra	Demichelis	UX Director	alejandra@paladin.insure

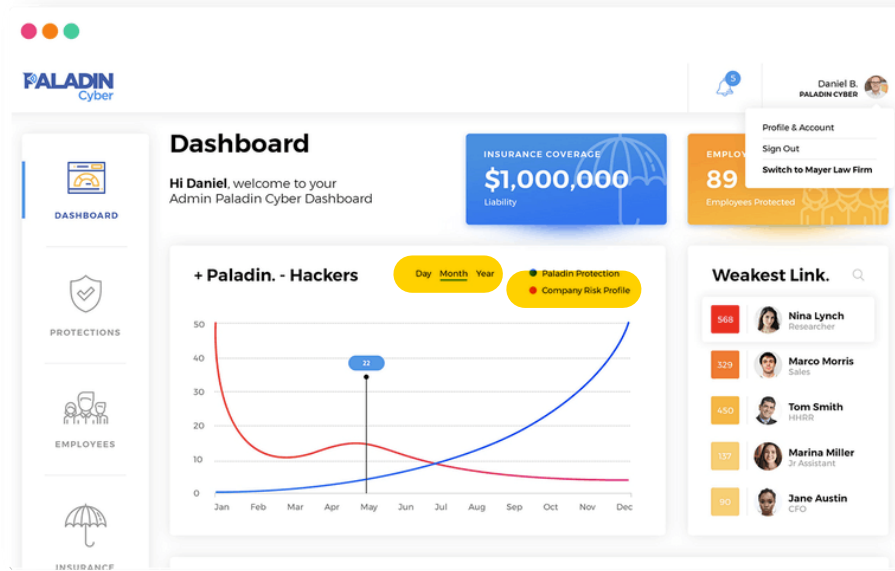

Below the table, it indicates 'Showing 1 to 3 of 3 entries' and provides pagination controls (Previous, 1, 2, 3, 4, 5, Next).

ADMIN DASHBOARD

Understand your company's risk, at a glance.

Get security reports, check the progress of employee education, and know what needs to be worked on from one easy-to-use dashboard.

Paladin makes it easy to digest all of this information so you can spend less time “understanding” the problem, and more time letting us solve it.

Plus its a great value

\$5

Per employee/mo

Secure your business against key vulnerabilities with zero IT expertise required.

 Inbox Protection	 XSS Protection
 Public WiFi Protection	 Content Filter
 Password Manager	 Employee Trainings

Other Cyber Protection Companies

\$50+

Per employee/mo

Based on a 20 employee company & includes expected IT costs.

For the same protection, you'd have to buy, deploy, and manage each software individually at **10X the cost.**

Cyber Protection made easy... and affordable

Get started on the road to securing your business.
