Phillip,

I shut down the PivotPoint email. I will review the NDA tomorrow to see how we can communicate.

Karl

Karl,

Thank you for your e-mail.

I do not wish to be pedantic, but there is a strong NDA between PivotPoint Risk Analytics and Quantar Solutions Ltd and since your e-mail originates from Cyberpoint LLC, I cannot respond to your questions in relation to the current position of Quantar or the IP it possesses.

If you wish to mail me from a PivotPoint RA e-mail address, I will respond.

Phillip.

Subject: Follow Up

Phillip,

I hope all is well. Unfortunately, we were unable to secure funding to push the company forward. I wanted to let you know that Julian has moved on to his next opportunity. I have taken over the company and turning over every stone to determine the best way forward.

I was wondering what your current position on pushing your ideas forward is and the disposition of your patents and IP. If you are open to talking with me, please drop me a note and times that would be convenient to talk.

Karl
